

Planet Joy is a world hiding in plain site, a world in our own homes that we've been too busy to notice. Every week, exciting creatures, unique buildings, and strange objects will be released! You can use these instructions to re-build them yourself, using any material you have, even waste! Don't forget to send us a snap!

If you didn't print this, a kind neighbour of yours decided to print an extra copy of these instructions and bring it to you!

Name:
Disco Clean

Creator:
Beatrice Cox
www.beatricecox.com

Story:
A little creature who likes to party all night with his friends from Planet Joy and listens to 70s music whilst showing off amazing outfits, but never leaves a mess!

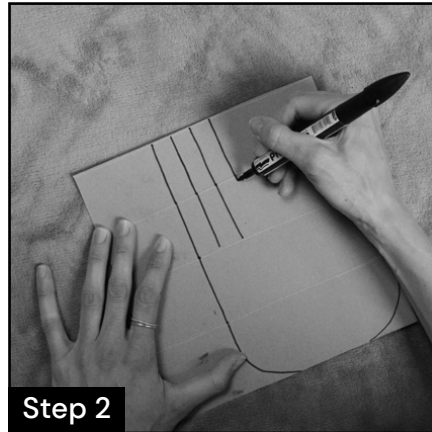

Materials:
Old kitchen foil box, two jar lids, markers, scissors, stick glue.

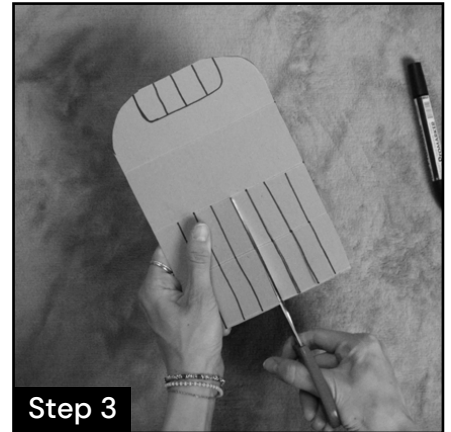

Step 1

Start by finding all the materials you will need.

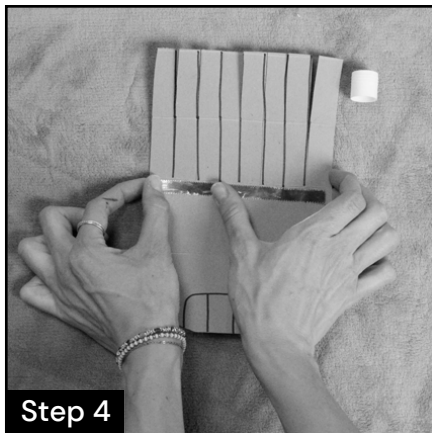

Step 2

Open up and flatten the cardboard foil box, and draw Disco Clean's hair as you like.

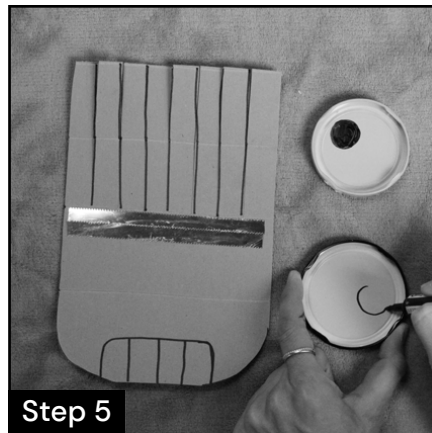

Step 3

Make some cuts to make the hair more real. Also draw Disco Clean's mouth as you like.

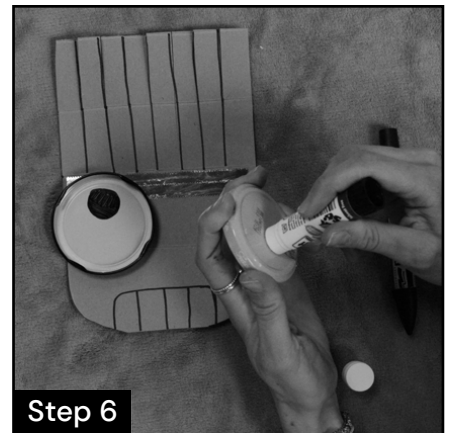

Step 4

Very careful not to cut yourself, glue the old box's strip to Disco Clean and create its eyebrows.

Step 5

Take two jar lids and draw some pupils on them. They will create Disco Clean's expression!

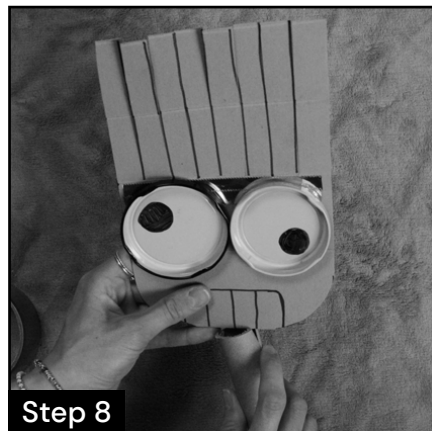

Step 6

Using stick glue, attach the lids to Disco Clean.

Step 7

Cut two short lines in the roll that used to hold the foil.

Step 8

Use the cuts to fit Disco Clean to the roll and make its body.
