

Planet Joy is a world hiding in plain site, a world in our own homes that we've been too busy to notice. Every week, exciting creatures, unique buildings, and strange objects will be released! You can use these instructions to re-build them yourself, using any material you have, even waste! Don't forget to send us a snap when're done!

If you didn't print this, a kind neighbour of yours decided to print an extra copy of these instructions and bring it to you!

Name:

Bizarre
 Outfitters

Creator:

Matteo Bandi
www.matteobandidesign.com

Story:

Just like on Planet Earth, the inhabitants of Planet Joy always like to be on top of the fashion game. Bizarre Outfitters was created to provide clothes for everyone, no matter what size, shape or number of tentacles. There must be one near you!

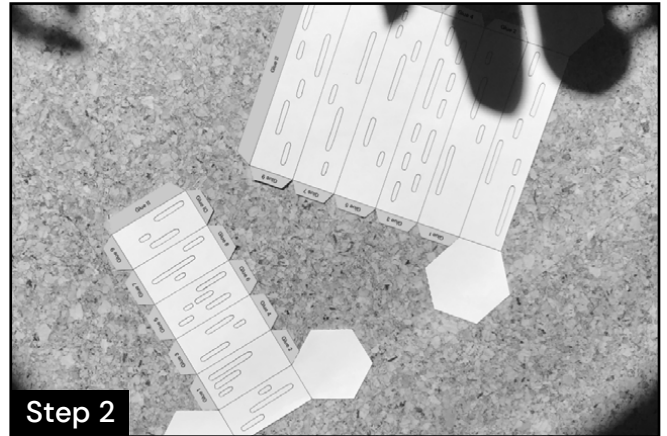

Materials:

Template from this document, two cans, stick glue, strong glue, scissors.

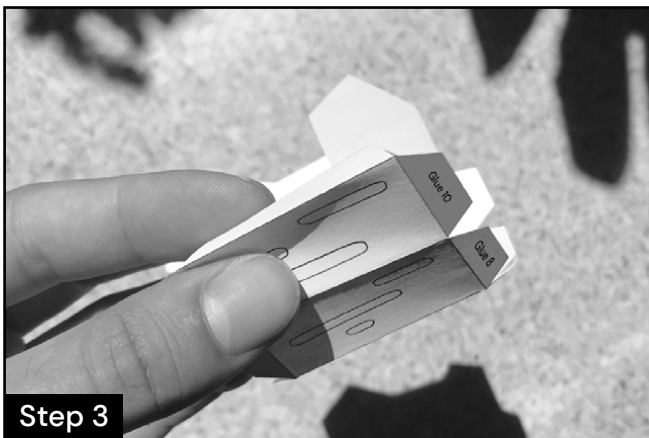

Start by glueing the two cans together and painting them with your favourite colour.

Cut the templates you find in this document. They will become parts of the store.

Fold inward all the solid lines you see.

Once all lines are folded, glue everything together following the number on the flaps!

Using some stronger glue, attach the two parts you just assembled to the cans.

Bizarre Outfitters is built! Feel free to decorate it how you prefer.

--- CUT
— FOLD
