

**Planet Joy is a world hiding in plain site, a world in our own homes that we've been too busy to notice. Every week, exciting creatures, unique buildings, and strange objects will be released! You can use these instructions to re-build them yourself, using any material you have, even waste! Don't forget to send us a snap!**

**If you didn't print this, a kind neighbour of yours decided to print an extra copy of these instructions and bring it to you!**

### **Story:**

A creature who makes sure that all Planet Joy inhabitant's waste is properly disposed of. Since he really cares about the Planet, he is always connected to help us keep track of how much waste is produced.

### **Materials:**

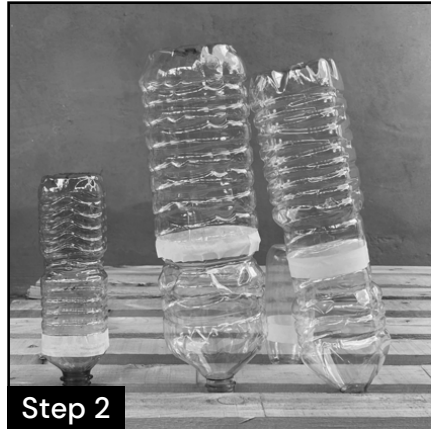

Four plastic bottles, masking tape, liquid paints, coloured tape, paper, hot glue and a marker.

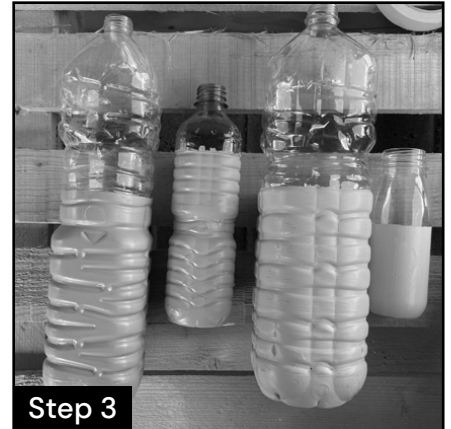

**Step 1**

Take 4 bottles of different dimensions and remove all labels.

**Step 2**

Using masking tape, mark the height of the colored part.

**Step 3**

Color the lower part of the bottles and, once dried, remove the tape.

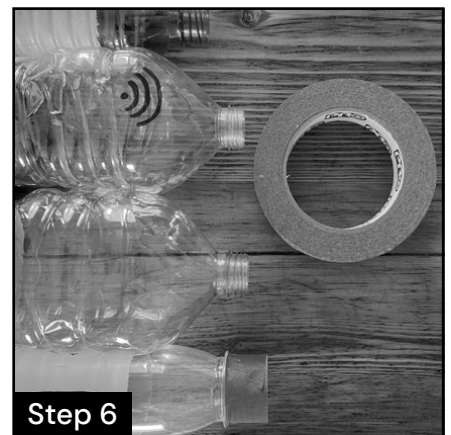

**Step 4**

Position the bottles as you prefer and glue them together using some hot glue.

**Step 5**

Using a marker, draw and create your own Intelligent Waster.

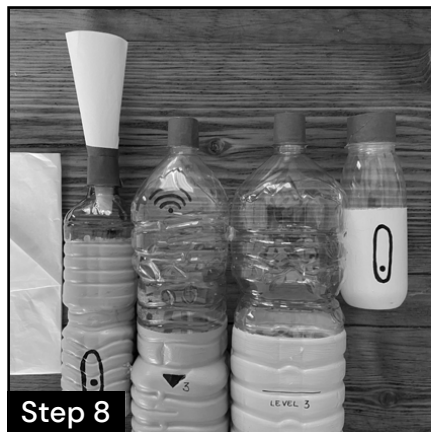

**Step 6**

Using some coloured tape, mask the top of the bottles.

**Step 7**

Create a funnel using paper and fix it in shape using tape.

**Step 8**

Insert the paper funnel into the top part of each bottle.
