

**Planet Joy is a world hiding in plain site, a world in our own homes that we've been too busy to notice. Every week, exciting creatures, unique buildings, and strange objects will be released! You can use these instructions to re-build them yourself, using any material you have, even waste! Don't forget to send us a snap!**

**If you didn't print this, a kind neighbour of yours decided to print an extra copy of these instructions and bring it to you!**

**Story:**

As every planet has its CCTV to control and check who is around, Planet Joy has Owleyes! He always moves around the house, keeping an eye on everything.

**Materials:**

2 empty butter boxes, 2 nuts & bolts, spray paint (your favourite color), a piece of cardboard, paper, markers and scissors.

Deeply clean 2 butter boxes.

Make a tiny hole in the back of both boxes using a screwdriver or just something pointy.

Color both the lids and the lower part of the boxes, either with spray paint or with any type of color that is available to you.

Take a rectangular piece of cardboard and make two tiny holes that will connect it to the bottom of the boxes.

Connect them using 2 nuts & bolts.

Either draw 2 eyes directly onto the lids or on paper first and then attached them.
